**VAHALLAN  
PAPERS**  
CUSTOM HAND-PAINTED WALL COVERINGS

[www.vahallan.com](http://www.vahallan.com)

Vahallan Papers started over ten years ago in a one-car garage, and has grown to become an internationally recognized company. Vahallan Papers has become an innovative leader in the hand-painted wall covering industry and we are committed to giving you the most unique and highest quality hand painted papers available. From our signature Black Reserve line to the Classic Styles that gave us the foundation for our company, we truly are the trend setter in the hand-painted paper industry. We have created over 100 standard patterns to choose from, and we can also customize colors and designs to fit your décor needs.

#### Hand-made Detail

At Vahallan, making beautifully colored, long-lasting wall coverings is our primary goal. We hand paint each and every piece that leaves our studio and we guarantee that you will love the richness, depth, and texture of our papers.

#### Benefits

- Seamless
- Extremely Durable
- Custom Designs and Application
- Class A Fire Rating Available
- Easy Repair
- Large Color Selection
- Unique Applications

#### Installation

Vahallan Papers uses unique application techniques to provide the look you desire. A simple torn edge style allows your walls to retain a seam-free design that will not repeat or show vertical lines. At the same time, our papers are flexible enough to be cut into blocks, diamonds, or circles that will give a truly one of a kind look.

#### Our Commitment

The way you decorate your home or business speaks volumes about you and your personal style. New wall coverings are one of the most dramatic ways to change the look of any room. We are dedicated to providing you with our highest level of service, selection, and quality on a daily basis. Our expectation is that you will find working with us to be a pleasurable experience. Our hope is that our wall coverings will become the inspiration of your décor.

## Torn Application

### Step 1: Tear

Determine the area you want to cover and tear the paper to fit. Unlike traditional wall covering, random tears will create a seamless finish.

### Step 2: Paste

A thin coat of any clear, strippable paste will adhere the paper to the wall. There are no harsh chemicals and it cleans easily with water.

### Step 3: Apply

Use a wallpaper brush to smooth the paper onto the wall. The final step is complete. No coatings, sealers, lacquers, or washing is required.

## Block Application

### Step 1: Mark

Use a level to create alignment marks. Following these lines will help you to keep the paper square throughout the installation.

### Step 2: Cut

Cutting blocks into different sizes gives a random look, or the paper can also be applied in squares, diamonds, or circles for a symmetric application.

### Step 3: Apply

Starting from your alignment marks, smooth the paper onto the wall. Varying shades can be used to create a bolder random design.
